# All American Nightmare

## Hinder

Let's go
Nightmare
Rock
Dressed head to toe, black on black
Three bunnies in the, back of my Cadillac
Which means it's going to be a good story to tell
Cash, grass and ass on the highway to hell
Careful what you wish for when you dream
I make the good girls bad and the bad girls worse
Nice guys are last 'cause I'm always first
I'm a freak show sucker for how it feels
Turn the girl next door into hell on heels
I'm red, white, blue tattooed and just don't care
I'm your all American nightmare
If you wanna run away I can give you a ride
I'm a one way ticket to the darker side
Come with me, baby, let's lose some sleep
Don't mistake me for a dream
I make the good girls bad and the bad girls worse
Nice guys are last 'cause I'm always first
I'm a freak show sucker for how it feels
Turn the girl next door into hell on heels
I'm red, white, blue tattooed and just don't care
I'm your all American nightmare
They try to lock me up and throw away the key
But they're never gonna hold down a freak like me
I'm an outcast, smokin' grass, livin' for free
I got everything you want but nothing that you need
Stick to me, baby
Oh, I make the good girls bad and the bad girls worse
Nice guys are last 'cause I'm always first
I'm a freak show sucker for how it feels
Turn the girl next door into hell on heels
I'm red, white, blue tattooed and just don't care
I'm your all American nightmare
I'm your all American nightmare
I'm your all American nightmare
And I got nothing that you need
