Candy

Lisa Stansfield

You open your eyes an' I see sunshine
I bathe in the light that you give me
You speak my name, it's a symphony
And the magic of life rushes through meSuggest it and I'll do it, there ain't nothing to it
'Cos it feels so good for me
It's wickedly delicious, I've got my three wishes
An' baby, when you want meIt's like takin' candy from a baby
And it's sweeter than sweet
When you're right here with me
It's like takin' candy from a baby
'Cos you do it to me every time
Yes you do
You do it to me every timeI dream of that place and you take me there
Boy, this is love and you're writing the story
When you run your fingers through my hair
Feels like the whole world is turning just for meI never have to wait, 'cause you reciprocate
Everything I do, yeah
It's wickedly delicious, I've got my three wishes
It almost seems too easyIt's like takin' candy from a baby
And it's sweeter than sweet
When you're right here with me
It's like takin' candy from a baby
An' you do it to me every time
Yes you doIt's like taking candy from a baby
And it's sweeter than sweet
When you're right here with me
Like taking candy from a baby
'Cos you do it to me every timeSweeter than sweet
Sweeter than sweet
Sweeter than sweetIt's wickedly delicious
I've got my three wishes
An' baby when you want meIt's like takin' candy from a baby
And it's sweeter than sweet
When you're right here with me
Like takin' candy from a baby
'Cos you do it to me every timeLike takin' candy from a baby
And it's sweeter than sweet
When you're right here with me
Like takin' candy from a baby

You do it to me every time
You do it to me every timeLike takin' candy from a baby
And it's sweeter than sweet
When you're right here with me
Like takin' candy from a baby
You do it to me every timeLike taking candy from a baby
And it's sweeter than sweet
