

Nothing You Can Live Without, Nothing You Can Do A

Mayday Parade

What are we good for?
I think you know!
What are we good for?
I think you know! In seven years, only one goodbye
That meant much to me
Down and out, and I'm fading fast
I can't keep it all together If every fairy tale could thread the night
And take me here to there
Or grab my hand and tell
What's the difference between Heaven and hell, cause I can't tell
You'll be my angel through it all
Dressed as a girl, you'll be part of this world
And we'll love like fools again I wanna thank you for your card
Cause Hallmark says it all
I'm sorry if I keep on trying to forget If you really love me then write about
How you never wanna live without
This broken boy who keeps on trying to forget Looks a lot like home, a better place to be
A terrifying feeling; I can't see you
We're always off and then on again
They say that I might be cursed for a while And I feel it setting it
It's in my head again
Watch me forget my lines How does it feel when you're all alone
I won't answer when you call
You don't wanna hear the things I think about
The things I can live without I wanna thank you for your card
Cause silence says it all
I'm sorry if I keep on trying to forget If you really love me then write about
How you never wanna live without
This broken boy who keeps on trying to forget I'm trying to find my way home
Well, there's nothing worse
Than walking by myself I'm tired of believing we could ever
Heal these broken dreams
When you're still sleeping in someone else's bed I wanna thank you for your card
Cause nothing says it all
I'm sorry if I keep on trying to forget If you really love me then write about
How you never wanna live without
This Georgia boy who keeps on trying to forget What are we good for?
I think you know!
What are we good for

I think you know!
What are we good for?
I think you know!
What are we good for
I think you know.
