

# If We Try

## Karen Carpenter

I've been living memories  
Lost in the warm of your smile  
Driftin' through the dreams we used to share  
    Thinkin' 'bout the times we  
    spent in love without a care  
    And wishin' you were there  
        So darlin' if you  
        should feel you're lonely tonight  
And you need someone next to you to hold you tight  
    Just call me and I'll be there by your side  
    Cause we can put that feelin' back inside us  
        If we try  
        Summer time was feelin' good  
        Holdin' the world in our hands  
        Seemed like what we had was growin' strong  
        Never even crossed our minds that  
            love would soon be gone  
        I guess that we were wrong  
            So darlin' if you  
            should feel you're lonely tonight  
And you need someone next to you to hold you tight  
    Just call me and I'll be there by your side  
    Cause we can put that feelin' back inside us  
        If we try  
        So darlin' if you feel you're lonely tonight,  
And you need someone next to you to hold you tight  
    Just call me and I'll be there by your side  
        (I'll be by your side)  
    Cause we've got all those memories to guide us  
    And we can put that feelin' back inside us  
        If we try
