Plague

The X-Files

I need you pure I need you clean
Don't try to enlighten me
Power to misconstrue
What have they done to youInfants in infantry
Rewrite their history
Uproot their colony
You're ripe for harvestingVirgin cells to penetrate
Too premature to permeate
They can't elucidate
Never thought i was the enemyI am the plague
I am the plagueThey fake sincerity
Thy gifts don't give to me
Now you've been annointed
They've been asking for itInfants in infantry
Rewrite their history
Uproot their colony
You're ripe for harvestingVirgin cells to penetrate
Too premature to permeate
They can't elucidate
Never thought i was the enemyI am the plague
I am the plagueI need you pure I need you clean
I need you pure I need you clean
