Steal Them Blind

Firewind

Live for now, seize the moment
Break away from rules and confines
Leave the bounds of moral constraints
Reap rewards and take all you findRide on into the night
Fade to black and hide
Take your time, all is ripe
Choose your crime, steal them blindFeel no guilt, ignore your conscience
Greed will rule, as food for your sustenance
Elevate your standard of living
Waste it all, there's a more for the takingRide on into the night
Fade to black and hide
Take your time, all is ripe
Choose your crime, steal them blindPlay it cool, I get away with everything
A done deal, a guaranteed sure thingTake your time, all is ripe
Choose your crime, steal them blind
Take what you find
And steal them blind
