

Beat My Head Against the Wall

Black Flag

Beat my head against the wall one more time
Will this solve my problems at all?
I don't care about parties or a good time
I won't stand in your lineSwimming in the main stream is such a lame dream
No method to the madness
Beat my head against the wallTension builds up so quickly
My judgement becomes affected
And without my even knowing it
I have started to act like a dickSwimming in the main stream is such a lame dream
No method to the madness
Beat my head against the wallRunning around like a chicken without a head
Get my kicks bouncing around in bed
But the next day I still feel the same
I'll find a way yo blast againSwimming in the main stream is such a lame dream
No method to the madness
Beat my head against the wall
