Lovers

Natalie Cole

Everywhere I go, in every face I see
The sign of love shining so brightly
Ohh, it's in the air, it's everywhere
I can feel it in my bones
People holding hands, making love
Really, really getting it onI'm crazy about lovers, beautiful lovers
Yeah yeah lovers, beautiful lovers
EverywhereAnd everywhere I go I hear people say
That they wouldn't mind checking it out
Ahh, getting on down
Don't you know that life can be beautiful
Life can be wonderful when you can always have
That special someone around?And I'm crazy about lovers, ooh beautiful lovers
Don't you know that they're everywhere?
Lovers, beautiful lovers
Everywhere, everywhere
Everywhere, everywhere in the airIf you like romancing and you don't want no dancing
Then check this groove out baby, you'll see
It is the sweetest sugar that you'll ever taste
You gotta chase those blues, get over them
Don't stop now controlling them
Then you'll find you're shaking them
Get if all while you can have a ballThere's a feeling and it's catching
Look what's happening
Take a trip, make it hip, you might dig itLovers
Lovers
Lovers
Beautiful lovers
Everywhere
Lovers
Lovers
Lovers
