

# Not This Time

## Young Buck

Not this time, you niggas never see me broke  
I got 10 different plugs tryna send me dope  
Not this time, I'll never let 'em murder me  
And I'll never let another bitch turn on me  
Not this time, it's all about the money this time (This time)  
It's all about the money  
I got 'em this time, remember how you done me last time? (Last time)  
Remember how you done me? But not this time  
It's okay for you to say that you don't fuck with me  
It's okay, cause it ain't hard to see that I don't fuck with you  
I don't play and niggas know that if you fuck with me  
It's guaranteed that them shooters gon' be comin' through  
I move the mid, touch the ye, you know what's up with me  
I do it big, that's the only way I know to do  
Pac gone, now you mothafuckas stuck with me  
I run with niggas only wear it if the fit is blue  
Right before I go to sleep I load up the clip  
Pray to God that I wake up cause I got dope to flip  
Tinted windows on my cars, you know I roll up a zip  
Niggas scared to go and get it but I take them road trips  
Yellow bone on them broads and she got her own whip  
Have a nigga seein' stars when I feel them soft lips  
I used to give niggas passes, now I whoop niggas' asses  
Cashville will not have it  
Not this time, you niggas never see me broke  
I got 10 different plugs tryna send me dope  
Not this time, I'll never let 'em murder me  
And I'll never let another bitch turn on me  
Not this time, it's all about the money this time (This time)  
It's all about the money  
I got 'em this time, remember how you done me last time? (Last time)  
Remember how you done me? But not this time  
It's cool for you to say that you don't speak to me  
'Cause truthfully, I don't wanna speak to you  
I got 10 different plugs talkin' 'bout meetin' me  
I never understood this shit that broke people do  
Shawty tell your baby daddy he ain't seein' me  
I got work, I got enough that I can feed him too  
All these bad bitches, nigga she ain't leavin' me  
These hoes know the difference between me and you  
I just cut the grass so I can see all of the snakes  
Got 'em out the way and made 'em send me all the weight

Anybody ever doubted me, know that was a mistake  
They tell me that they love me but now I know it's fake  
I never let 'em lie to me again to my face  
I never call these niggas friends cause they ain't  
I used to let these niggas get a pass, now I can't  
"This nigga lost his mind" is what you think But not this time, you niggas never see me broke  
I got 10 different plugs tryna send me dope  
Not this time, I'll never let 'em murder me  
And I'll never let another bitch turn on me  
Not this time, it's all about the money this time (This time)  
It's all about the money  
I got 'em this time, remember how you done me last time? (Last time)  
Remember how you done me? But not this time It's cool for you to say that you don't shower me  
'Cause truthfully I ain't tryna serve you  
It ain't cool for you to say what you just got from me  
That's the shit that make a real nigga hurt you  
Get some money while you motherfuckers watching me  
Its way past a broke nigga curfew  
I'm never lookin' back, it ain't no stoppin' me  
Remember how you done me?  
But not this time
