Whatever We Like

Iglu & Hartly

(Chorus)
We can talk all day, we can talk all night
Do whatever we like, do whatever we like
Or we can just sit around, and do whatever we like
Do whatever we like, do whatever we likeWe can talk all day, we can talk all night
Do whatever we like, do whatever we like
Or we can just run around, and do whatever we like
Do whatever we like, do whatever we likeForget the clock on the wall
Forget about it all
Live like time dont exist
Its a small
Thing to do to change the way we act
I look around the corner life is changing fast
But it really dont have to be like that do it
I dont wanna go and leave you
Going back through it
But Im driving away in a car full of friends
Hearing songs that remind of the time that we spend, and
Now Im sitting and Im wondering if
The thunders gunna roll when we kiss, or
Is the rain gunna come down
Gotta go inside so we can talk some more.(Chorus)
We can talk all day, we can talk all night
Do whatever we like, do whatever we like
Or we can just sit around, and do whatever we like
Do whatever we like, do whatever we likeWe can talk all day, we can talk all night
Do whatever we like, do whatever we like
Or we can just run around, and do whatever we like
Do whatever we like, do whatever we likeA phone calls sticking in the back of my mind
I was listening to you
Yea its been a long time
And it might have been a hard year
It aint easy when youre looking in the mirror
Only seeing your tears
Enough is enough
And all this time
Spent just drinking it up out of my mind
Counting the times
We would have a lot of fun

Get into a little trouble
Hoping fences on the run
And, we can only look in the past so long
Give us a second
We can sing a song
About all the happy times
And the times we got mad
Fighting, giving up and smiling before we shook hands
Now, I got one thing to say
Take a seat next to me and stay
A while
We can cross paths again
Like we did
Before we grew up and did our own shit, shit.Please dont forget
Please dont forget
Cuz these moments they seem to fade so quick
We put aside just a little time to laugh
Got places to go, so little time for that, but
When we go our separate ways
Remember the days
Late night, staying up, sharing a blaze
Cuz these times, those times
All those low times
Weve been together, gunna be better in no time
Cuz everything that happens is a blessing in disguise
We can read it like a bunch of letters in the sky
What it says, who knows but I know
We gotta a lot to talk about
So come on lets go(Chorus)
We can talk all day, we can talk all night
Do whatever we like, do whatever we like
Or we can just sit around, and do whatever we like
Do whatever we like, do whatever we likeWe can talk all day, we can talk all night
Do whatever we like, do whatever we like
Or we can just run around, and do whatever we like
Do whatever we like, do whatever we like
