Ms. Light Brown

Skillinjah

say this ones for my lady
and this is for my baby

when you come down
may i forget ya
nough gal around
none better
than ms light brown
you my reefer, eyy
i want you as my friend and my lover

so when you come down
may i forget ya
nough gal around
none better
than ms light brown
you my reefer
i want you as my friend and my lover

you dont know me love you
always thinkin of you
theres no other woman in this world i put above you
and though i lost you
i still endorse you
it is you, baby you, of course you

got me wrapped around your middle finger
waitin in vain, its so hard to linger
i got more love songs to sing ya
i got some flowers to bring you

so please come down
may i forget ya
nough gal around
none better
than ms light brown
you my reefer, eyy
i want you as my friend and my lover

so when you come down

may i forget ya
nough gal around
none better
than ms light brown
you my reefer
i want you as my friend and my lover

so now listen kanye, when em tell if ya run
when me come for your love, its like a train a come
it can done, me say this love it can done
me stand up inna love, we will take that gun

so if you want bust it up in a sensei station
you want bust it up and goes a rum-pa-pam-pam
kill me dead with your love injection
it feels so nice and warm

when you come down
may i forget ya
nough gal around
none better
than ms light brown
you my reefer
i want you as my friend and my lover

so please come down
may i forget ya
nough gal around
none better
than ms light brown
you my reefer
i want you as my friend and my lover

you dont know me love you
always thinkin of you
theres no other woman in this world i put above you
and though i lost you
i still endorse you
it is you, baby you, of course you

got me wrapped around your middle finger
waitin in vain, its so hard to linger
i got more love songs to sing ya
i got some flowers to bring you

so please come down

may i forget ya
nough gal around
none better
than ms light brown

so please come around
may i forget ya
nough gal around
none better
