Pass The Gun Around

Alice Cooper

Sonny wakes up in the morning, feeling kinda sick
Needs a little Stoli Vadka, needs it really quick
Sees a little blood run from his eyes
Feels a little hotel paralyzedPass the gun around
Give everyone a shot, give everyone a shot, you gotta
Pass the gun around
And throw me in the local river, let me float awayI wake up watching cartoons, the television's on
There's a couple of party balloons and all my money's gone
She was just a reason to unwind
And actually the last thing I could findWhy don't you, pass the gun around?
Give everyone a shot, give everyone a shot, you better
Pass the gun around
And dump me in the local river, let me float away
Float away, ah float awayPass the gun around
Give everyone a shot, give everyone a shot, why don't you
Pass the gun around
Throw me in the local river, let me float awaySonny wakes up in the morning, there's a stranger in his bed
Someone's pounding on the hotel door, he wishes he was dead
I've had so many blackout nights before
I don't think I can take this anymoreWhy don't you, pass the gun around?
Give everyone a shot, give everyone a shot
Why don't you, pass the gun around?
Give everyone a shot, give everyone a shot we're gonnaWe're gonna pass the gun around
Give everyone a shot, give everyone a shot
We're gonna pass the gun around
Give everyone a shot, give everyone a shotYou gotta pass the gun around
Give everyone a shot, give everyone a shot
You gotta pass the gun around
Give everyone a shot, give everyone a shot
You gotta pass the gun around
