

Cry Til the Morning

Richard Ashcroft

First time that I ever saw you
Knew nothing would ever be the same
Sweet love in the process
There were things that I needed to explain Yeah, you didn't play with my feelings
Like the others with their games
You said it's time to do some bleeding
Time to cry the past away Cry 'til the morning
Cry 'til the morning
We just cried 'til the morning
Yeah, I cried like never before First place and I never quite asked her
Those pictures faded on your wall
Those family members
Sometimes they've just gotta call Mmm, sweet love in the process
And solitude, and love combined
Have you got an address
Someplace new that we can find?
So we can Cry 'til the morning
Cry 'til the morning, yeah
Cry 'til the morning, yeah
Cry like you've never before Cry 'til the morning
Cry 'til the morning
Cry 'til the morning
Cry 'til the morning Cry 'til the morning
Cry 'til the morning
Cry 'til the morning
Cry like you've never before
