

# Firedance

## Acrimony

There was a thought at the beginning of time  
All lives were known yours and mine  
A conscious thought  
A thought of loveDance round the fire  
Dance round the fireYou say to me  
A chemical reaction  
To create new life  
Create mankind  
But don't you feel that deep insideDance round the fire  
Dance round the fireWon't you sell my soulDown, down and down...
