

Beautiful Disaster

American Hi-fi

I'll make you a 5 star enemy
I've taken a fall would you like to see
Choke it down what a sound run away from me
Keep on laughing girl do you see me
Break it down now
What chu want anyway
Right about now
What chu want anyway
I'll fuck it up again
What chu want anyway
We keep falling in love
What a beautiful disaster
What a beautiful disaster
Connect my skull to the socket
Burn baby burning like a rocket
Can't sell do tell would you buy it
Thick skin now don't you wanna try it
Break it down now
What chu want anyway
Right about now
What chu want anyway
I'll fuck it up again
What chu want anyway
We keep falling in love
What a beautiful disaster
What a beautiful disaster
What a beautiful disaster
What a beautiful disaster

Connect my skull to the socket
Burn baby burning like a rocket
Choke it down what a sound run away from me
Keep on laughing girl do you see me
Break it down now
Break it down now
Break it down now
What chu want anyway
Right about now
What chu want anyway

I'll fuck it up again
What chu want anyway
We keep falling in love
We keep falling in love
Break it down now
What chu want anyway
Right about now
What chu want anyway
I'll fuck it up again
What chu want anyway
We keep falling in love
What a beautiful disaster
What a beautiful disaster
What a beautiful disaster
What a beautiful disaster
What
What
