One Day

Cody Jay

Everytime I wonder
It comes to my head
Keep denying what you said
But It's really nothing
You told me no you can't
But I'm still holding on

Chorus:
Cause I... put it in the song
Would you come along?
I.. I know it something
But I put it in the song
Would you come along?
Why do I care? baby
Cause one day you'll be there

Go trough with this solution
Telling everyday
That everything's okay
I hear you
Honey would you trying to
Because I can shake it all away
Everyday I wish you stay

2 times chorus

You'll be there...
