

You (The Bold And The Beautiful Swishy Disco Mix)

S Club 7

You, are all I need to get me through (to get me through now baby)
Like a falling star I fell for you (I fell for you) Sweet anticipation, is giving me the butterflies
And my heartbeat's racing, 'cause loving you is beautiful
When you're so irresistible So don't stop (don't stop), what you're doing baby
So good (so good), and it drives me crazy
One touch, I'm in heaven yeah
'Cause loving you's so beautiful baby, 'cause You, are all I need to get me through (to get me through now)
Like a falling star I fell for you (I fell for you)
You have taught me how to love, an angel sent from high above
And now I know that all I need is you
Oh I need you, and you need me, and we'll always be forever Thought I knew what love was, I always ended up
in tears (ended up in tears)
It's just the way my world was, until you walked into my life
It's something that I just can't hide Real love (real love), has come my way
And I know (and I know), that it's here to stay
And it feels like never before
'Cause loving you's so beautiful baby, 'cause You, are all I need to get me through (to get me through now baby)
Like a falling star I feel for you (I fell for you)
You have taught me how to love, an angel sent from high above
And now I know that all I need is you
'Cause I need you, and you need me, and we'll always be together
'Cause I need you, and you need me, and we'll always be forever You're my inspiration
My world just seems a brighter place
I just wanna tell you (tell me)
I've never ever felt this way
I've never thought I'd see the day Real love (real love)
Has come my way
And I know (I know)
That it's here to stay
And it feels (who-ho-hooo)
Like never before
'Cause loving you is so beautiful baby 'cause You are all I need to get me through (to get me through now baby)
Like a falling star I fell for you (I fell for you now girl)
You have taught me how to love
An angel sent from high above
Now I know that all I need is You are all I need to get me through (get me through now baby)
Like a falling star I fell for you (I fell for you)
You have taught me how to love
An angel sent from high above

Now I know that all I need is you
