Cold and Lonely

Slaid Cleaves

'Cause I don't like to be cold and lonely
So I can warm myself by your fire
And keep myself warm, oh'Cause I don't like to be cold and lonely
So I can warm myself by your fire
And keep myself warm, ohNo time to cry when I'm needing
I need you in my soul, yeah
'Cause that's when you're strongest
And maybe it's time for me to move on, move onFeel the sun, feel the rain
Don't leave me lonely and cold in pain, no way
And now I think it's time
To check out the other side of the coin
See if I can find some happiness, there'Cause I don't like to be cold and lonely
So I can warm myself by your fire
And keep myself warm, oh
'Cause I know what it's like to be cold and lonelyHow can you do this to me, how can you do this to me? Yeah
How can you do this to me, how can you do this to me? Yeah
How can you do this to me, how can you do this to me? Yeah
How can you do this to me, how can you do this to me? Tell me now'Cause I don't like to be cold and lonely
So I can warm myself by your fire
And keep myself warm, oh'Cause I don't like to be cold and lonely
So I can warm myself by your fire
And keep myself warm, oh
