

# Fallin'

Dmx

[Chorus]

Father can you hear me when I'm callin' (callin', callin')  
I need you to be near me when I' fallin' (fallin', fallin')[DMX]

Stop me Lord, I'm going down the wrong road  
and I'm moving fast for a person with a strong load

but the weight I bare, I can't wait to share  
scrapped it there, my faith was always there

I'ma make it yeah, life is what it is  
nobody said that you would make it fair

and I'ma take it there, built for war  
gladiator with a good heart but built for more

but sometimes aint enough sunshine till you dark cloud  
cause the devil on line, casue there was one time

you put your hand on me and said

don't worry about where you go, cause you're being led[Chorus]

Father can you hear me when I'm callin' (callin', callin')  
I need you to be near me when I' fallin' (fallin', fallin')[DMX verse 2]

Day gets hard, but it's supposed to  
call on God cause that's who I'm close to  
told him, I chose you

I was introduced to the Devil  
and through it all, I still chose you  
I needed you, you rose to the occassion  
stood beside me, no matter what I was facing  
here I go chasing the wrong thing again

but if I fall, I know its you not him

that's be right there to pick me up

put me back on my feet, ugh, lift me up

plus you gave me the voice so I'm gon say it now

I love my God and I'm gon say it proud[Chorus]

Father can you hear me when I'm callin' (callin', callin')

I need you to be near me when I' fallin' (fallin', fallin')
