

# Security

## Uncommonmenfrommars

I don't know  
That the plans that I have to save  
    My security  
    Has never been enough for me  
    You must have been heaven sent  
You showed me there's more than paying the rent  
    I've been passin' hours of my days  
    Selling books and things  
    I've missed many years of my life  
        Having securities  
        And I don't know  
        What is right or wrong  
        Sometimes I feel  
        I'd be better off without this home  
        And it's a hell of a waste when you're gone  
        Hording all your things for so long  
        I've been passin' hours of my days  
        Selling books and things  
        I've missed many years of my life  
        Having securities, yeah  
        Sometimes I know  
        That I have been told  
        That I need a second job  
        So I can grow old  
        But I haven't lived my life yet  
        And I've never been out of this set  
        I've been passin' hours of my days  
        Selling books and things  
        I've missed many years of my life  
        Having securities  
        I've been passin' hours of my days  
        Selling books and things  
        I've missed many years of my life  
        Having securities, yeah
