The Last Time

Amen

Well I stand here cuz' I can't feel the pain
I don't know who's to blame
This culture breeds and feeds ascension
Descension, the tapes of your ascensionLike to liveThe same, you all the same
Inside hole, hits decay you
Depression, oppression
Every rape for your obsessionFill meNothing, I stand in here with
Nothing, I fill myself with
Nothing, I burn myself with faith
'Cuz I can't stand youEvery time you look away
All the dogs will fly away
These victims climb all over me
And I can never descentThis is the last time
This is the last time
When I'm going down
Where I can never stay
Last time on burning sandsI stand here 'cuz I can't feel the pain
You know the fucking names
This culture finds you, it ties you
It lies in every thing, I can't deny youI'm blind, come in here alive
Feeling I can't find
Filling all the liesThis is the last time
This is the last time
Well I'm going down
Where I can never stay
Last time on burning sands
Last time, last time
Last time, last time
[Incomprehensible]
