

Out of the Dark

Buffalo Tom

No matter where I go
I can't escape this shell
I wonder if it's real? Out of the dark
But is that really me there? I thought you were my friend
But that was my mistake
It must have been the bar room lights Out of the dark
But is that really me there? So we have to say good bye
To the end of summertime
Well, here's to hanging on Out of the dark
But is that really me there
(repeat)
(bridge as outro)
