No One Above

Michael Tolcher

[Verse 1]I'm gonna let you in
With some poetry we begin
Get loose while the record spins
I could be your new best friend
And then even more
We could click
No games, no lies, no tricks
No problems we can't fix
For love
Or just for kicks
[Hook]I like the way you touch me in places
I heat up
My heart races
Deeper I'm falling in love
[Chorus]I go crazy
'Cause you want me
No questions
I whisper a secret confession
Miss you
There's no one above
No one above
[Verse 2]Whatever it takes
I bend the rule book 'till it breaks
I'll be a true love
No mistakes
I'll be with you
As long as it makes sense
With patieince
I know
My way your wind will blow
Two heart beats and one glow
Ready, set, go
[Hook]I like the way you touch me in places
I heat up
My heart races
Deeper I'm falling in love
[Chorus]I go crazy
'Cause you want me

No questions
I whisper a secret confession
Miss you
There's no one above
No one above
[Verse 3]Come on
Take a chance
Feel free to let your spirit dance
Spark, flame, fire, and romance
It's a brand new circumstance
To enhance
Who you are
No bruise, no cuts, no scars
It's painless
No broken heart
Baby, trust me
[Hook]I like the way you touch me in places
I heat up
My heart races
Deeper I'm falling in love
[Chorus]I go crazy
'Cause you want me
No questions
I whisper a secret confession
Miss you
There's no one above
No one above
[Verse 4]I like the way you want me
No question
Whisper a secret confession
"It's you"
There's no one above
[Hook]I like the way you touch me in places
I heat up
My heart races
Deeper I'm falling in love
