

# Life goes on

## Jet Market

Let's go!

[Oh Land - Chorus] Oh when the day is gone

    Oh when the nights are long

    Life goes on

    Life goes on

    We gotta live it up til it's gone

    Cuz we won't be around too long

    Life goes on

    Life goes on

[Travie McCoy] Lately it seems the good dreams are few and far between

    Nightmares are putting fires out with gasoline

    And I'm just tryna stay rightous

    Sometimes I see my own face in Christ's likeness

    And apart from my life's vices, fifteen years young had my first mid-life crisis

    But it's tough to stay up right empire from people you hold high speeding up the most buyers

    My daddy told me misery loves company

    If that's the case they must hating they ain't getting none from me

    I don't sweat it, they set better in my DNA

    I got a good heart, and bad braids be a man

[Chorus] Oh when the day is gone

    Oh when the nights are long

    Life goes on

    Life goes on

    We gotta live it up til it's gone

    Cuz we won't be around too long

    Life goes on

    Life goes on

[Travie McCoy] Up late, Facebook, and playing "Could've Been"

    Starin at an empty bed my ex girl should've been in

    Thinking what I woulda done different

    Not a damn thing cuz finally i'm done with it

    Besides I got a girl that adores me

    And I never take for granted all things she does for me

    I shoot the moon down and put it on a wedding band

    Then they see the songs of mine too, cause she's an Otis Redding fan

    And she'll never forget it man,

    Cuz she knows she'll never find a better man

    Let's go ahead with these wedding plans

Come on, let's sing a song life goes on  
[Chorus]Oh when the day is gone  
    Oh when the nights are long  
        Life goes on  
        Life goes on  
    We gotta live it up til it's gone  
    Cuz we won't be around too long  
        Life goes on  
        Life goes on  
[Bridge]You take too much for granted  
    I just can't understand it  
    We don't ask, we demand it  
    He been trying not to panic  
[Chorus]Oh when the day is gone  
    Oh when the nights are long  
        Life goes on  
        Life goes on  
    We gotta live it up til it's gone  
    Cuz we won't be around too long  
        Life goes on  
        Life goes on
