

# Way Back Home (Original)

## Bag Raiders

Rain pours down over a city  
Night has fallen like a stone  
Are you gone or are you with me?  
In my heart I'll never know If I close my eyes I'll see you  
Hear your footsteps in the rain  
In my dream I'll never find you  
but I'll hear you call my name Oooooooh  
Oooooooooooooohhh As I tread through crowds of people  
Trying to keep from looking back  
Got your sense on something passing  
And it sends me off my track  
Do I find you will I follow  
To forever and a day  
I can feel you in the distance  
But you seem so far away What if I just can't find my way back home (ooh)  
What about all the things I just don't know (ooh)  
What if I just can't find my way back home (ooh)  
Would you be there to show me where to go (ooh) Oooooooh  
Oooooooooooooohhh What if I just can't find my way back home (ooh)  
What about all the things I just don't know (ooh)  
What if I just can't find my way back home (ooh)  
Would you be there to show me where to go (ooh)  
What if I just can't find my way back home (ooh)  
What about all the things I just don't know (ooh)  
What if I just can't find my way back home (ooh)  
Would you be there to show me where to go (ooh) Oooooooh  
Oooooooooooooohhh
