

# He Calls Home

## Candlebox

Well I see him everyday in that blanket that he calls home  
I wonder does he know that his family they're left alone  
He says, Brother can you spare, can you spare a dime  
I'm down to my last dollar this life of mine  
Said this life of mine gets rough at times Now I wonder does he know does he even care  
That his family, they're safe at home and they wonder where  
As he wanders through his life, he's ever searchin' for  
A warm blanket on warm fields and he wanders on  
And he wonders is he safe from the cold? Safe out from the cold Well I see he left the other day took his blanket  
that he called home  
Did he go for good or did he pass away?  
Well I wonder does he know see I'm down to my last dollar  
And this life of mine said this life of mine, it gets rough at times And now I wonder does he know, does he even  
care?  
That my family is safe at home and they wonder where  
As I wander through my life ever searchin' for  
My warm blanket on warm fields as I wander on  
And I wonder will I always be helped along? I said I, I'll never know no, no  
Because I, I'll never go and no, no  
Yes, I, I said I wonder why, yeah  
Because I yeah, oh no I'll never come home  
I'll never come home, never come home  
Won't you let me come home? Doesn't wanna come home Oh, said, oh I got I'll never know  
Yes, I, I'll never go no, no  
Yes, I, I said I wonder why yeah  
Because oh yeah, oh no, I'll never come home  
I'll never come, never come home, home  
I wanna come home, won't you let me come home?  
'Cause I wanna come home, let me come home?  
Come home
