My Love

Next

Can't you see I need to find, my love, my love
Where, where is, my love
See, I've got to know
I've looked all around the world to find, my love, my love
Where, where is, my loveYou can have a life with me
Every wifey's dream
With the priceless things like bling
You can have it all if I called you my love
(My love, my love)You can have your name on a yacht
All the fame that I got
Drop the Range off the lot like free
You can have it all if I called you my love
(My love, my love)I got the child place, the hot wheels
I got the pay, got the record deal
I got the streets, I got the crowds
I got my peeps who come to turn the party outI got the clothes, I got the ends
I got my dukes and bubble odd Benze
I got the crib with the seashell pool
I got the hits, but all I need is youYou can have a life with me
Every wifey's dream
With the priceless things like bling
You can have it all if I called you my love
(My love, my love)You can have your name on the yacht
All the fame that I got
Drop the Range off the lot like free
You can have it all if I called you my love
(My love, my love)I got it all good the wrist froze
I got the hood in the video
I got the clubs with the V.I.P.
I got the thugs bouncin' with the ladyI got the trips, around the world
I got the 6 for the diamond, girl
I got the Fendi and the Prada, holla holla if you know
You wanna hook up, hook up c'mon'Cause girl I know that you
Might already have the finer things that ballers do
But baby still, still I hope, you choose
To be with someone on your level
To give you what you want but if you don'tYou can have a life with me
Every wifey's dream
With the priceless things like bling

You can have it all if I called you my love
(My love, my love)You can have your name on the yacht
All the fame that I got
Drop the Range off the lot like free
You can have it all if I called you my love
(My love, my love)You can have a life with me
Every wifey's dream
With the priceless things like bling
You can have it all if I called you my love
(My love, my love)You can have your name on the yacht
All the fame that I got
Drop the Range off the lot like free
You can have it all if I called you my love
(My love, my love)My love
My love
My love
