Through My Eyes

Giant

I know it hurts you,
Every time he goes away
You don't deserve to be left that way
I 've been your shoulder
The one you cry upon
But someday you wont take him back
You refuse to be treaded like thatChorus
If You could see through my eyes
You'd see the woman I live and die for
If you let me come inside
You'd never go back to a heartache like that
If You could see through my eyesI 've kept my secrets, but I cant stay quiet now
I wont just stand by and watch
As he leaves you
Out in the could, don't worry girl
You 've got someone to hold!Chorus
If You could see through my eyes
You'd see the woman I live and die for
If you let me come inside
You'd never go back to a heartache like that
If You could see through my eyesNow there's time on your hands, holes in your heart
You keep sp perfectly still
But loneliness kills!
Someday you wont take him back
You refuse to be treaded like thatChorus
If You could see through my eyes
You'd see the woman I live and die for
If you let me come inside
You'd never go back to a heartache like thatIf You could see through my eyes
If You could see through my eyes
You'd see the woman I live and die for
If you let me come inside
You'd never go back to a heartache like that
If You could see through my eyes
If You could see through my eyes
Through my eyes
Ah baby
If You could see through my eyes
If You could see through my eyes

Ah baby
If You could see through my eyes
If You could see through my eyes
