

Paper Romance

Groove Armada

taste it in the air so sweet
because they come alive
my visions of the city street
all of electrify
I feel your heat
I never wanna let you go
I rock too this beat
I'm standing here to let you know
yeah you can write me a love letter
but there's nothing to say
don't wanna take a chance on your paper romance anyway
yea you can rub it off much better
if you come away
my golden heart beats for you
my golden heart beats for two
I feel my pain
the time it takes
for us to change

its gonna happen anyway
I feel your heat
I never wanna let you go
I rock to this beat
I'm standing here to let you know
yeah you can write me a love letter
but there's nothing to say
don't wanna take a chance on your paper romance anyway
yea you can rub it off much better
if you come away
yeah you can write me a love letter
but there's nothing to say
don't wanna take a chance on your paper romance anyway
yeah you can write me a love letter
but there's nothing to say
don't wanna take a chance on your paper romance anyway
yea you can rub it off much better
if you come away
