Man On Mars

Kaiser Chiefs

Put a man on Mars today

It wasn't the first time

I've seen it all before

Took my hat off in the rain today

It wasn't the first time

I've seen it all before

Trust you

Trust you

Trust you to know everything about me

Trust you

Trust you

Trust you to know everything about me

All along

And the coffee is medicine

It's hard to remember

I've seen it all before

And the picture of the factory floor

Like rats in a suitcase

I've seen it all before

Trust you

Trust you

Trust you to know everything about me

Trust you

Trust you

Trust you to know everything about me

All along

Put a man on Mars today

It wasn't the future

I've seen it all before

Trust you

Trust you

Trust you

Trust you to know everything about me

Trust you

Trust you

Trust you

Trust you to know everything about me

All along
