

Morning Star

Amorphis

You live only for yourself
Or send your soul to the heaven's grace
Been weak as the autumn leaves Or strong as the growing seed
Swallowed into the black
Search for the entrance What's to the eyes of morning star?
Baden for the savior but it's much too far
Reach for the infinity
The only thing that remains is decay What's to the eyes of morning star?
Baden for the savior but it's much too far
Reach for the infinity
The only thing that remains
The only thing that remains
