If I'm Gonna Fall In Love

[A Rocket to the Moon](#)

I'm gonna take my time
make sure that the feeling's right
Instead of staying up all night
Wondering where you are
Miles and miles away
In a town in another state
I wanna know if you just can take
The thought of us apartIf I'm gonna fall in love
There's gotta be more than just enough
I gotta get that old feeling
I gotta get that old highI come from an empty town
Far away from the city sound
I'd like to settle down someday
And I need to know your plans
Something that'll take you back
Cause' I want to live like that one dayIf I'm gonna fall in love
There's gotta be more than just enough
I gotta get that old feeling
I gotta get that old highYou got a love to own
Gotta live life like a rolling stone
I gotta get that old feeling
I gotta get that old highIf I'm gonna fall in loveI can't stop wondering why
They take us to a longer time
Maybe I should just let go
But baby all I know
is I'm gonna fall in love
Someday, someway you'll show up
I'm gonna get that old feeling
I'm gonna get that old highIf I'm gonna fall in love
There's gotta be more than just enough
I gotta get that old feeling
I gotta get that old highYou got a love to own
Gotta live life like a rolling stone
I gotta get that old feeling
I gotta get that old highIf I'm gonna fall in loveI gotta get that old high
I gotta get that old highIf I'm gonna fall in love
