Jay Down

Tunng

Soft wings and gentle tongue
Mountains that breathe as long as Kipling
Oh sorrow song
Of it all

All that static air
Old stream tangled hair
Firepower from somewhere
All tongues twisted here

Jaybird on old black branch
Whisper all secrets past
Old man, don't be afraid
Of it all

Jaybird hold your tongue
Whisper all that's done
Deep down lover's song
Where did we go wrong?
