

# Destructor

## Barilari

We have the initiative to kill  
You will be the prey tonight  
Fighting hard shoot you dead at will  
We're using hell's fire light  
We have the power of the gods  
Hallucination filling up your mind  
Higher than you've ever been before  
Screaming harder this timeStunning your senses  
Blinding your eyes  
Submission comes fast when you're hit  
Destructor defiesWe are the rulers of the land  
Decieve us & you shall die  
Moving fast killing what we can  
We are Destructor we will defy  
We'll win the battle in the end  
Gleaming swords of metal steal the fight  
You shall die a mean & mighty death  
With a thunderous roar in the nightStunning your senses  
Blinding your eyes  
Submission comes fast when you're hit  
Destructor defiesWe have the initiative to kill  
You will be the prey tonight  
Fighting hard shoot you dead at will  
We're using hell's fire light  
We have the power of the gods  
Hallucination filling up your mind  
Higher than you've ever been before  
Screaming harder this timeStunning your senses  
Blinding your eyes  
Submission comes fast when you're hit  
Destructor defies
