

I Would Do Anything

Pure Devocion

The words die in my throat
And there is nothing I can do
For the thoughts you're a monster
And now a shadow of my tears
Your life is a mockery
Twisting in the wind
Is this your legacy?
Born of ignorance
I'll give my heart and soul
To see you free again
I would do anything
So many mistakes
Have lead to this disaster
Ten years of reflection
Don't waste a moment
Are you out to seek the truth?
You must shout
I'll give my heart and soul
To see you free again
I would do anything
If you could see the hope
I've always seen in you
I would do anything
The wave is crushing, can't be relieved
With the sins of the past at your side
Pray for life or bleed to death
Pray for life or bleed to death
I'll bleed the reddest blood
To see you live again
I would do anything
If you could see the hope
I've always seen in you
I would do anything
