

# Shine Down

## 009 Sound System

Oh yeah  
Why won't you give me that star that shine down?  
I'm so there  
If you show me that I'm on your mind now  
I know it's simple to say  
When you're trippin  
You can believe anything  
But I got reasons to race like a Jesus  
Walking on in the rain

You turn around, you wanna leave  
You can't afford, you can't believe  
I'm trying baby if I'm gonna fade away  
If you let it, if you let it shine down

But don't talk, no need to speak  
Just turn it on, if what I'm feeling  
I'm trying baby if I'm gonna fade away  
If you let it, if you let it shine down  
If you let it, if you let it shine down

Oh yeah  
Why won't you give me that star that shine down?  
I'm so there  
If you show me that I'm on your mind now  
I know it's simple to say  
When you're trippin  
You can believe anything  
But I got reasons to race like a Jesus  
Walking on in the rain

You turn around, you wanna leave  
You can't afford, you can't believe  
I'm trying baby if I'm gonna fade away  
If you let it, if you let it shine down  
If you let it, if you let it shine down

But don't talk, no need to speak  
Just turn it on, if what I'm feeling  
I'm trying baby if I'm gonna fade away

If you let it, if you let it shine down  
If you let it, if you let it shine down
