

# Hope

## Natasha Bedingfield

Remember morning always comes  
As night surrenders to the sun  
No matter how dark it may become  
Don't stop your light from shining on 'Cause nothing's ever over till you say it's over  
And nothing's ever finished  
Not unless you walk away You see I've got hope So you could use a little, use a little  
Leave it when you've done it  
And I won't let go  
'Cause with a little, with a little it can go a long way  
Hoooo-o-pe hoooo-o-pe, hoooo-o-pe  
I've got hope  
It's easier to say you can't when you know you can,  
It's easier to let go then to hold somebody's hand  
But if you do, then you might just understand yeah  
That it's okay to not know where you're gonna end 'Cause nothing's ever over till you say it's over  
And nothing's ever finished  
Not unless you walk away You see I've got hope  
So you could use a little, use a little  
Leave it when you've done it  
And I won't let go  
'Cause with a little, with a little it can go a long way  
I've got hope  
So you could use a little, use a little  
Leave it when you've done it  
And I won't let go  
'Cause with a little, with a little it can go a long way  
Ooh oh oh oh oh,  
you need hope  
Oooh oh oh oh oooh,  
I got hope  
I got hope You see, I've got hope  
So you could use a little, use a little  
Leave it when you've done it  
And I won't let go  
'Cause with a little, with a little it can go a long way  
I've got hope  
So you could use a little, use a little  
Leave it when you've done it  
And I won't let go

'Cause with a little, with a little it can go a long way  
Oooh oh oh oh oooh Oooh oh oh oh oooh  
I've got hopeOooh oh oh oh oooh,  
Give me hope  
I need a hand, I need a hand, I need a hand
