

# Fool Hearted Memory

[George Strait](#)

Nickels and dimes, memories and wine  
She's on his mind once again  
The same ol' stew, the same ol' fool  
Played by the rules but didn't win  
There's an old love in his heart that he can't lose  
He tried forgettin' but he knows that it's no use  
He's got a fool hearted memory  
It won't let him see, that she walked out the door  
He's got a fool hearted memory, he sits patiently  
Here every night so it can fool him more  
She was his girl, his only world  
That string of pearls that slipped away  
A thousand dimes, a thousand times  
He doesn't mind what they say  
He fills the jukebox, then plays the same ol' song  
He fills his glass and then he turns her memory on  
But it's a fool hearted memory  
It won't let him see, that she walked out the door  
He's got a fool hearted memory, he sits patiently  
Here every night so it can fool him more
