Lift Me Up (Mykel Mars Remix)

Lena Katina

When I feel all alone
Losing faith, can't go on
When I start breaking down
With my strength running outWhen I'm searching, falling, drowning
When I'm blinded by the darkI feel you all 'round
I feel you all 'round
You know me inside and out
You lift me up!I feel you all 'round
I feel you all 'round
You love me inside and out
You lift me up!You lift me up!Tell myself all the time
Don't be scared, you'll be fine
When your world falls apart
Hold onto your dreams, don't give upSearching, fighting, hoping
When I'm blinded by the darkI feel you all 'round
I feel you all 'round
You know me inside and out
You lift me up!I feel you all 'round
I feel you all 'round
You love me inside and out
You lift me up!Searching, fighting, hoping
When I'm blinded by the darkI feel you all 'round
I feel you all 'round
You know me inside and out
You lift me up!I feel you all 'round
I feel you all 'round
You love me inside and out
You lift me up!You lift me up!
You lift me up!
