Sundown

Fireball Ministry

Well lock up the doors and be silent
Tell all of the children be still
A lifetime of pain upon us
Never control a man's willSundown
Raise a fist to all before us
Rundown
Steel and sin were all they gave
ComedownPray the end will come to haunt us
Sundown
Send the demons to their graveListen for sounds of the dark ones
Spreading the fear they instill
A lifetime of pain is upon us
Never control a man will
