Same Old Story

Capleton

We need more love and trust
Justice is all what we need
So let us speak and trust
So that we all can proceed
And never loose focus
That will make us achieve
I dont love and trust
Burn dem envy in meSame old same old story nah loose your sanities
Same old same old story nah above vanities
Same old same old story their promises
Same old same old story so dem wanna ..Still dem always say what dem gonna do
Still dey always do what dem wanna do
And dey always say what dey neva do
And their words their speak are neva tru
Still oppression dem apply
Ive got dem sick gals dem living and getting so high
I everything must go high
I wonder if dem neva fail the people payment, the people cry
Dem talk like that sky is the limit
And still when mi ready fi my share dem a tell it aint finish
Long time slave abolish and diminish
Well dem still a go with dem willing sing itSame old same old story their promises
Same old same old story nah loose your sanities
Same old same old story nah above vanities
Same old same old storyWe need more love and trust
Justice is all what we need
So let us speak and trust
So that we all can proceed
And never loose focus
That will make us achieve
I dont love and trust
Burn dem envy in meSame old same old story nah loose your sanities
Same old same old story nah above vanities
Same old same old story their promises
Same old same old story so dem wanna ..Still dem always say what dem gonna do
Still dey always do what dem wanna do
And dey always say what dey neva do
And their words their speak are neva tru
Still oppression dem apply

Ive got dem sick gals dem living and getting so high
I everything must go high
I wonder if dem neva fail the people payment, the people cry
Dem talk like that sky is the limit
And still when mi ready fi my share dem a tell it aint finish
Long time slave abolish and diminish
Well dem still a go with dem willing sing itSame old same old story their promises
Same old same old story nah loose your sanities
Same old same old story nah above vanity
Same old same old story so dem wannaPremature promises will make you get discourage
Inflation getting high economical worries
So mi tell the ghetto youth dem dont get discourage
Mi warn dem from the corner nigger, sex to the sorries
