

White Synthetic Noise

...and Oceans

Inhale/exhale Inhale the injected voice Inhale the exhaled Inhale/exhale Inhale/exhale Exhale the inhaled
Inhale/exhale And released the liquids in drops Silence depicted the room And devours the cities in drone
Infinity licks the tongue of thorns Inhale the lines of white noise The core of poison free sound These designers
of syndromes Slowly drifting to the mind of dub Inhales heavens to earthly eyes Gardens swallow the idyllic
life Open palms of autumn scars Adieus to plaintive solar charm
