

# Our Day Trip

[Nina Nastasia](#)

let's not go to work this morning  
let's not wait to leave the city  
we've got just enough money let's see how far we can amble  
one day can make all the difference  
brings the red dirt into water can you stay with me and tell them you're sick  
i'll pack us a meal for our day trip we'll be save out in the sun  
we'll split a bottle on a boat  
two souls alone now on a lake it will be the perfect afternoon  
we can loose our clothes and have a swim your free hand waving from the gate  
the medal shining at your waist  
you had so much more ambition
