

# Wouldn't Hurt So Bad

## Steps

I've never met somebody  
That does what you do  
Takes my emotions and makes each one  
Fell brand new Trouble is there is someone  
Been here in my heart  
So now I've got to put an end to  
What I've been dying to start And it wouldn't hurt so bad  
If it didn't feel so good  
You know I'd be with you  
If there was anyway I ever could You know I wouldn't miss your touch  
If I didn't want it so much  
I don't want to go but I should  
You know it wouldn't hurt so bad  
If it didn't feel so good Sounds like it should be easy  
But it's just so hard  
We've got to come to our senses  
Before we go too far I want you but I can't have you  
So sad, so true  
Gotta be careful what you wish for  
'Cos this could never come true And it wouldn't hurt so bad  
If it didn't feel so good  
You know I'd be with you  
If there was anyway I ever could You know I wouldn't miss your touch  
If I didn't want it so much  
I don't want to go but I should  
You know it wouldn't hurt so bad  
If it didn't feel so good I can't help seeing how it could be  
I close my eyes and you're here next to me  
I'm helplessly watching us start to fade  
And love slip away And it wouldn't hurt so bad  
If it didn't feel so good  
You know I'd be with you  
If there was anyway I ever could You know I wouldn't miss your touch  
If I didn't want it so much  
I don't want to go but I should  
You know it wouldn't hurt so bad And it wouldn't hurt so bad  
If it didn't feel so good  
You know I'd be with you  
If there was anyway I ever could You know I wouldn't miss your touch

If I didn't want it so much
