

Breathe (Snippet)

Rose Falcon

It's a sunny happy day and the sky is crystal clear oh yeah
Surprise surprise I'm okay the best I've been in years oh yeah
Summer's hanging in the trees
Bluebirds butterflies and bees
The world's all right and that's all right with me

'Cause I hardly think about it anymore
Oh it's just a distant memory
And I hardly think about it anymore
What happened to the dream
And it only hurts when I breathe

Got more money in the bank than I ever had before oh yeah
Things keep going my way pretty soon I'll have a whole lot more oh yeah
But I'm sleeping in a lonely bed when I remember to forget
The world's all right and that's all right with me

'Cause I hardly think about it anymore
Oh it's just a distant memory
And I hardly think about it anymore
What happened to the dream
And it only hurts when I breathe

And it only hurts yes it only hurts
Now it only hurts when I breathe

Sun up sun down
Breathe in breathe out
Breathe in...
Breathe out...
Breathe in...
Breathe out...

'Cause I hardly think about it anymore
Oh it's just a distant memory
And I hardly think about it anymore
What happened to the dream
And it only hurts when I breathe

And it only hurts yes it only hurts

Now it only hurts when I breathe
