

# Song Within a Song (live)

## Camel

The sun has left the sky  
Now you can close your eyes  
Leave the world behind until tomorrow  
The dream is like a song  
It leads you on and on  
The piper plays his tune so you must follow So far beyond the sky  
Not knowing how or why  
You realize this feeling is forever  
And though another day  
May steal your dreams away  
You and the song will always stay together
