Changed

Gabe

Would you be proud
If you could see me right now
I know I'm not perfect
But all I want is to be the man you always knew I could beThey say good things come once in a life
I guess I missed my opportunity
And if I could bring you back to me once again
I'd do anything anything to show youI've Changed
I know it took time
But now I'm a different man than before in my life
I want to show you I've Changed
I know it took time
But I'm all grown up
I want to show you I've ChangedI know I was crazy
But that happens when you're young and stupid
If there was a way to take back what I did
Trust me, I'd find a way to do itI know sometimes I'm wrong
And sometimes you might be wrong
But there's a reason that I'm sitting here alone
And I'm tryna drown my sorrowsThey say good things come once in a life
I guess I missed my opportunity
And if I could bring you back to me once again
I'd do anything anything to show youI've Changed
I know it took time
But now I'm a different man than before in my life
I want to show you I've Changed
I know it took time
But I'm all grown up
I want to show you I've ChangedCan you hear me calling
Can you hear me calling
I know you don't wanna hear me
Please find a wayI've Changed
I know it took time
But now I'm a different man than before in my life
I want to show you I've Changed
I know it took time
But I'm all grown up
I want to show you I've Changed
