Western Promise

Ultravox

HaiOh mystical East, on old postcards
Your childhood dreams and energies
Your temples' gardens, old world charm
An ancient culture, torn and scarredThis is my Western promiseOh mystical East, you've lost your way
Your rising sun shall rise again
My Western world gives out her hand
A victor's help to your fallen landThis is my Western promiseHaiMystical East, all taxi-cabs
All ultra-neon, sign of the times
Your Buddha Zen and Christian man
All minions to messiah, Pepsi canThis is my Western promise
