

# Western Promise

Ultravox

HaiOh mystical East, on old postcards  
Your childhood dreams and energies  
Your temples' gardens, old world charm  
An ancient culture, torn and scarredThis is my Western promiseOh mystical East, you've lost your way  
Your rising sun shall rise again  
My Western world gives out her hand  
A victor's help to your fallen landThis is my Western promiseHaiMystical East, all taxi-cabs  
All ultra-neon, sign of the times  
Your Buddha Zen and Christian man  
All minions to messiah, Pepsi canThis is my Western promise
