

# Outsider

## Chumbawamba

For over half a million young people every weekend  
A good night out means breaking the law Outsider, outsider, outsider, outsider  
Outsider, outsider, outsider, outsider I'm not alone, you're not alone  
I'm not alone, you're not alone Outsider, outsider, outsider, outsider  
Outsider, outsider, outsider, outsider You see me, you hear me  
There are millions think just like me  
You see me, you hear me  
There are millions think just like me I'm not alone, you're not alone  
I'm not alone, you're not alone Outsider, outsider, outsider, outsider  
Outsider, outsider, outsider, outsider You see me, you hear me  
There are millions think just like me  
You see me, you hear me  
There are millions think just like me You see me, you hear me  
There are millions think just like me  
You see me, you hear me  
There are millions think just like me You see me, you hear me  
There are millions think just like me  
You see me, you hear me  
There are millions think just like me You see me, you hear me  
There are millions think just like me
